ABOUT ME

I am a recent graduate with a Bachelor's degree in Statistics and a minor in Data Science. In addition to my academic foundation, I have gained 1 year of hands-on experience as a Research Assistant, where I applied statistical techniques, performed data cleaning, and carried out data analysis using Stata and RStudio. I also have 2 year of part-time experience as a Business Analyst, which strengthened my skills in understanding user requirements, interpreting business needs, and supporting data-driven decision-making. These combined experiences have allowed me to develop strong analytical abilities, practical problem-solving skills, and the capability to transform complex data into meaningful insights that contribute to both research and business objectives.

EDUCATION

CHIANG MAI UNIVERSITY | 2021-2025

Bachelor of Science Major in Statistics and Minor Data Science

PHAYALAWWITTHAYAKHOM SCHOOL | 2014-2019

AWARD

3rd Undergraduate Research Symposium Academic Year 2024

Top 10 Finalists Data Science Innovation Projects 2022

EXPERIENCE

RESEARCH ASSISTANT

DEPARTMENT OF PEDIATRIC, FACULTY OF MEDICINE, CHIANG MAI UNIVERSITY | 2025-PRESENT

- **Data Analysis** : Collect, clean, and analyze research datasets related to pediatric infectious disease outcomes using statistical tools. Interpret findings to support research objectives and prepare data summaries for investigators and collaborators. Ensure data integrity and accuracy throughout the research lifecycle
- **Web Development & Management** : Design, develop, and maintain Organization websites to support project visibility and stakeholder communication. Implement front-end updates, ensure site functionality, and optimize user experience across platforms

BUSINESS ANALYST & OUTFITTER

H.CHINDA DESIGN | 2024-PRESENT

- **Inventory Management** : Monitor and manage in-store stock levels to ensure product availability and minimize overstock or shortages. Conduct regular stock counts and reconcile physical inventory against system records.
- **Sales Analysis & Market Trends** : Analyze sales data to identify performance trends, seasonal patterns, and market movements. Track trade and market trends to support informed purchasing and pricing decisions
- **Financial Reporting** : Prepare monthly sales summaries and expense reports to track business performance and cash flow. Compile and organize financial data to assist in budgeting and cost management.

KNOWLEDGE SHARING & INTERNATIONAL OUTREACH

NATIONAL UNIVERSITY OF LAOS | 2023

- **Academic Presentation** : Represented the Faculty of Science, Chiang Mai University, on an outreach mission to Laos, engaging directly with local students to promote academic opportunities and foster cross-border educational connections. Delivered on-site presentations to prospective students in Laos, showcasing academic programs, research opportunities, and student activities offered by the Faculty of Science, Chiang Mai University. Communicated teaching approaches, research methodologies, and faculty strengths to help students make informed decisions about their academic future.

MINI PROJECT FOR DATA MANIPULATION

DEPARTMENT OF COMPUTER SCIENCE CMU | 2023

- Designed and developed a mini project focused on data manipulation and visualization using Python. Utilized libraries such as Pandas, Matplotlib, and Seaborn for data processing, statistical analysis, and interactive visualization. Applied fundamental machine learning concepts to academic projects, including model building, training, and performance evaluation

READY TO STARTUP

SCIENCE AND TECHNOLOGY PARK | 2022

- Generated and developed original tech-based startup ideas, exploring innovative solutions to address real-world challenges. Applied design thinking frameworks to translate abstract ideas into structured, actionable technology concepts

DATA SCIENCE INNOVATION PROJECTS

FACULTY OF SCIENCE CMU | 2022

- Proactively conceptualized and proposed innovative data science projects addressing unsolved real-world problems, combining technical expertise with creative problem-solving to design next-generation technology solutions.

SKILLS

- | | | |
|-----------|----------|-----------------------|
| • RStudio | • Python | • Microsoft Office365 |
| • Stata | • HTML | • Power BI |
